Filed: October 20, 2003)
For: "Topical Anti-Cancer)
Compositions and Methods)
of Use Thereof")

DECLARATION OF STANLEY S. SHAPIRO, CHRISTINE PAINE, ALLAN H.
CONNEY, AND MOU-TUAN HUANG

We, Stanley S. Shapiro, Christine Paine, Allan H. Conney, and Mou-Tuan Huang, hereby declare:

1. That we, along with Miri Seiberg and Connie Baozhen Lin are co-inventors of the subject matter described and claimed in an application for Letters Patent, Serial No. 10/689,149, in the United States Patent and Trademark Office. This application was filed on October 20, 2003 for an invention entitled: "Topical Anti-Cancer Compositions and Methods of Use Thereof".

2. We have assigned all right, title and interest in and to the above-identified invention and application to Johnson & Johnson Consumer Companies (Skillman, NJ) and Rutgers, The State University of New Jersey (New Brunswick, NJ).

3. At the time of filing of the above-identified application, we were not identified as joint inventors. Miri Seiberg and Connie Baozhen Lin were named as joint inventors in error due to a misunderstanding of the law determining inventorship and, more specifically, our contribution to the claimed subject matter.

4. In 2008, we were informed that we, Stanley S. Shapiro, Christine Paine, Allan H. Conney, and Mou-Tuan Huang, should have been identified as co-inventors of the subject matter set forth and claimed in the above-identified application along with Miri Seiberg and Connie Baozhen Lin.

5. We have realized that an unintentional error in inventorship occurred and are filing the present declaration to correct this error.

6. This error was made in good faith, without deceptive intent.

7. We hereby declare that all statements made herein of our own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
